Teaching Licenses Annual Charge Supplements	Already paying annual charge supplement due to existing licenses (yes or no)	Unit cost EURO annual charge supplement	Total cost EURO annual charge supplement
Front End Verification and Implementation Tools		535	
Analogue Simulation and Modelling		535	
Advanced TCAD		535	
B: Total Classroom Teaching Annual Charge Supplements			

Grand Total A+B (EURO)	

Note 1. EUROPRACTICE members with existing regular EUROPRACTICE non-commercial research and training licenses and who have paid the appropriate qualifying annual charge are eligible for consideration for a default amount of 50 Classroom Teaching licenses. Synopsys may consider requests for higher numbers of licenses. All applications for access to low-cost Classroom Teaching licenses require an initial proposal and renewals require a successful yearly report.

Note 2. EUROPRACTICE members with existing regular EUROPRACTICE Front End and Verification (FEV) licenses or existing regular combined FEV and Implementation Tools (IMP) may apply for classroom licenses of Classroom Front End Verification and Implementation Tools (CR-FEVIMP). However, where a EUROPRACTICE member only has regular FEV licenses and does not have regular IMP licenses then the CR FEVIMP licenses will be of the same functionality of their FEV suite (i.e. CR-FEVIMP will not include Implementation tools (IMP) functionality). However, if the EUROPRACTICE member has both FEV and IMP regular licenses then the CR-FEVIMP licenses will include IMP tools functionality. We regret that if the EUROPRACTICE member only has regular IMP tools licenses and does not have regular FEV licenses then this does not qualify for access to classroom CR-FEVIMP licenses.

Note 3: Synopsys Classroom Teaching Licenses may not be licensed from the same server as used for regular EUROPRACTICE Synopsys licenses. Classroom Teaching licenses must be on a separate license server.

In this box please confirm the actual physical location (geographic address) of the above server:

Note 4: Server Identification. For license key file generation only. Please see website for details of the supported platform of the individual Synopsys tools**.**

PC Linux: /sbin/ifconfig –a eth0 | grep HWaddr
             The required ID is 12 Hex characters long (ignore any colons)

PC Windows: 1. from MSDOS window, type: ipconfig /all
             2. find the line "Physical address"
             The required ID is 12 Hex characters long (ignore any hyphens

Note 5: Server Configuration. Synopsys supports either a single license server or three license servers operating as a voting cluster. In the case of a three server configuration, the license server remains active if two machines remain operational although all three machines are required to be operational for the license server to start initially. Please specify either a single license server or three license servers to operate as a cluster.

Note 6: I**ntel processors.** Licensing on machines with Intel processors requires that these are Pentium IV or later architecture processors. Licensing from Intel Pentium III and earlier Intel processor architectures is not supported by Synopsys License server daemons.

Please duplicate this page and use a separate copy for each different license server if necessary.

Synopsys Classroom Teaching Licenses are subject to **all** of the terms of the existing Synopsys- EUROPRACTICE End User Agreement ("EUA") already signed by your Institution. In addition, the Synopsys Classroom Teaching Licenses may only be used in a classroom environment for the teaching and instruction of bona-fide registered students on undergraduate or postgraduate taught courses. The use of these licenses for any other purposes, including research or teaching of short courses for industrial delegates, is strictly forbidden.

Synopsys has absolute discretion as to whether or not to approve each request for Classroom Teaching Licenses. Any approval to use Classroom Teaching Licenses shall expire on the 30th September of each year. (In the case of an <u>initial</u> submission after 1st July then the right to use Classroom Teaching licenses shall be granted until 30th September of the following year)

Synopsys and EUROPRACTICE will consider any proper request from an Institute that is already Synopsys customer (via EUROPRACTICE) to use Classroom Teaching Licenses. This request is subject to the submission of a satisfactory description of how the licenses are to be used and, in the case of an application to extend approval for a further year, also include full details of the usage during the previous period. The request to extend approval in subsequent years (including the report describing how the licenses have been used in the current year and will be used in the forthcoming year) is required by 30th September.

Should the main Synopsys- EUROPRACTICE End User Agreement be breached in anyway, the EUROPRACTICE membership of your institution terminated, or payment of invoiced charges not received, then the approval and right to use these Synopsys Classroom licenses will cease with immediate effect.

Declaration:- Synopsys Classroom and Teaching Licenses

I understand and agree to the above terms and wish to request approval for Synopsys Classroom Teaching License as detailed on this order form. I have also submitted a description (by email to MicroelectronicsCentre@stfc.ac.uk) of how these Classroom Teaching Licenses will be used within my institution. This document is titled:
